ANNUAL REPORT 2020-2021

SDCH has successfully completed 18 years providing quality education and contributing in the field of dental health care. The academic and extracurricular activities are aimed at fulfilling the vision and mission of the college.

About SDCH

After the formation of the state of Uttaranchal, it was realized that the new state with a population of nearly 1 crore, did not have adequate facilities for both the dental and the medical education.

In an endeavour to overcome the vacuum of dental education, Dr. B.S.Gupta Medical Charitable Society decided to take up the challenge and laid the foundation stone of Seema Dental College & Hospital in "Devbhumi" Rishikesh.

The Vision of the college is to impart value based high quality Dental education to the students of Uttaranchal and other states and providing best dental care to the population with the help of best infrastructure and facilities. At Seema dental College it's our aim to create increasing awareness amongst the masses about dental hygiene, providing affordable and easy access for dental care to the patients, management of every kind of dental emergencies as well as become an epicentre for research and technology.
