Date 29-07-2024

Participation Count	Faculty	27	Student	92	Total	119
----------------------------	---------	-----------	---------	-----------	--------------	------------

Objective	To enlighten participants about the concept & importance of facial esthetic and its scope in dentistry.
Expected Outcome	To make the participants aware of the various esthetic procedures and the methods to improve facial esthetic. To make them understand the scope of a dentist beyond the oral cavity. The purpose of the hands-on was to show the application of these methods to improve the aesthetics while demonstrating the proper techniques and the site of application and to make the hands-on participants perform the procedures.
Outcome Achieved	Overall 92 post graduates and interns and 27 Faculty members actively took part in the lecture and 12 Post Graduate Students engaged in hands-on sessions. Also a live telecast of the hands-on procedure was done in the lecture hall-1 to benefit maximum participants. This interactive approach allowed for a practical understanding of the benefits & scope of the esthetic & cosmetic procedures.

Seema Dental College and Hospital, is the state of art dental institution, situated in the spiritual surroundings of Rishikesh. It is a premier education institute engaged in providing quality education in dentistry to the aspiring youth of India. The college is first recognized dental institute in the state of Uttarakhand for BDS and MDS and is affiliated to HNB Medical Education University, Dehradun, Uttarakhand. To keep the lamp of knowledge working, the college is continuously conducting various lectures and courses. In this chain, the college is pleased to inform that another CDE Programme is being organized on 19th July 2024.

**SEEMA DENTAL COLLEGE & HOSPITAL,
RISHIKESH**

is organizing
a CDE Programme
on

**"SCOPE OF FACIAL ESTHETICS
IN DENTISTRY"**

by

DR ASHISH SINGH
BDS, MDS
Perioplatic Surgeon

Date & Day: 19th July 2024, Friday
Venue: Lecture Hall -1 (LT-1)
Time: 10:00 AM

Facial Esthetics encompasses a variety of non surgical procedures such as dermal fillers, botox injections etc. designed to enhance the overall appearance of the face.

Facial Esthetics takes a more holistic approach than traditional dentistry, taking into consideration the patient's facial structures, skin and soft tissues in addition to their teeth.

Seema Dental College and Hospital will be organizing a CDE Programme including Lecture and Hands-on.

Lecture : 10 am

Hands- on : 2 pm

For Registration, fill in the google form given below:

https://docs.google.com/forms/d/e/1FAIpQLSecNzo9TSCpNCQ8ztJ4AFbI2r1MNjpF6RK6jrvqhAN5CT9Wig/viewform?usp=st_link

Prior registration for Hands-on is must.

Activity Report

Objectives: To make students familiar about the Research methodologies and plan the research strategies. To plan out and conduct the study in the favourable environment and to determine the expected results

Expected Outcomes: The course was organised with the purpose to clarify the research goals, expectations of research goals, to determine and eliminate biases, and identifications of limitations

Outcomes Achieved: The students were made to indulge in fun learning activities wherein various tasks were assigned to check the flow of thoughts which ultimately is required in the field of Research. The students were more confident and had an insight about the various aspects of research and its scope. The students were versed with different methodologies its type and the procedure for penning down the research project

Activity Report:

Objectives: To educate the delegates about different medical emergencies and their management by the means of an elaborative lecture and physical demonstration of management of emergencies by basic life support procedures like CPR, Heimlich Maneuver and appropriate dosing of emergency drugs. In addition knowledge will be enhanced about various drugs which should be included in basic emergency kit to manage emergencies in dental clinic.

Expected Outcomes: The participant should be able to identify and recognize early warning signs of a potential medical emergency, understand the basic principles of reducing risk factors, which may manifest during a dental appointment and take appropriate measures for the management of the medical emergency. Administer appropriate intervention/treatment for the specific patient and provide case appropriate follow-up instructions.

Outcomes Achieved: The PCC course was highly appreciated by all the delegates. An interactive session of questions and answers in the end with the physical demonstrations cleared the queries regarding medical emergency management in the dental operatory.

Activity Report

Objectives: To make students familiar about the anterior and posterior composites

Expected Outcomes: The course was organised with the purpose to clarify how different anterior and posterior composites can be used in day to day clinical practice to achieve the highest esthetic outcome for the patient.

Outcomes Achieved: The students were made to indulge in interactive and brainstorming session with the mentor. Hands on Demonstration was also performed to have the student more clear idea about how composites can be used. The mentor also discussed her own clinical cases so that a real time idea was embed in student's mind about varied cases encountered in one's daily practice. In addition to this, a newly manufactured composite systems was introduced by the mentor in association with mani company.

Activity Report

Objectives: To make students familiar about the Digital Impressions and CAD/CAM

Expected Outcomes: The course was organised with the purpose of providing knowledge about the newer technologies in dentistry like Digital impressions and how to record them. What are the benefits of using CAD/CAM and how to use it was covered in hands on.

Outcomes Achieved: The students were involved in a very interactive session with the mentor about the digital impressions, advantages and disadvantages and procedure of fabricating Crown/FPD like Zirconia, Tussera etc in less than two hours for reducing the chair side time and multiple appointments of patient visit. A well oriented hands on was given to the students in which they were learned the procedure of digital impression making and how to process the same in CAD/CAM. In addition to impression making, CAD/CAM can also be used for smile designing and orthodontic aligners were also demonstrated.

Activity Report

Objectives: To make students familiar about the rotary files used in root canal treatment and hands on for the same

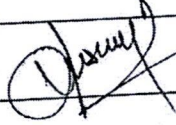

Expected Outcomes:The course was organised with the purpose to clarify the use of rotary files in endodontics and its efficiency in root canal treatment so that it can be used in day to day clinical practice to achieve the better outcome for the patient.

Outcomes Achieved:The students were involved in a very interactive and brainstorming session with the mentor. Hands on Demonstration was also performed to provide for a better learning and understanding of these rotary files which can complete the treatment in less than 1 hour, thereby reducing the chair side time and multiple visit. The mentor also discussed his own clinical cases so that a real time idea was embed in student's mind about varied cases encountered in one's daily practice. In addition to this, a newly manufactured rotary file system JIZAI was introduced by the mentor in association with mani company.

"We must Learn Something New Everyday"

Seema Dental College and Hospital conducted a Pitts21 certified training course * entitled **Pitts21 - A Paradigm Shift in Passive Self Ligating " on 7th, 8th and 9th April 2022.

Dr. Amit Gupta, Chairman SDCH, Dr. Himanshu Aeran, Director Principal SDCH, Dr. Prem Prakash Gupta, Vice Principal, Dr. P Narayana Prasad, Professor & HOD Orthodontics, Dr. Prasad Chitra, Guest Speaker, Mr. Naresh Panjala , Pitts21 representative inaugurated the event by seeking the blessings of Maa Saraswati with Lamp Lighting. Dr. Himanshu Aeran, Director Principal enlightened the occasion with his words and appreciated the presence and participation of all Delegates by giving everyone gracious welcome.

Dr. P Narayana Prasad, Professor & HOD Orthodontics introduced our esteemed guest speaker Dr. Prasad Chitra, BDS, MDS , Pitts21 Mentor, by recognising his achievements and being grateful for his presence and share of his knowledge.

Dr. Prasad Chitra, the only mentor of the Pitts21 bracket system, used SAP protocol to educate all the delegates on the importance of aesthetics, occlusion and TMJ. Multiple Live bondings were performed according to SAP protocol and a Laser enabled SAP methodology was demonstrated in patients with occlusal refinement.

Dr Tarun Sharma, Professor, Orthodontics proposed the Vote of Thanks. Dr Anu Grover was Master of ceremony. Following are the highlights of the programme-

Day 1-

3:00 pm- 7:00pm- Inauguration and Demonstration of bonding protocols

Day 2-

8:30am - 7:00 pm - Lectures on Function and Aesthetics, Case Management, SAP protocol with its advantages

Live Bonding session

Day 3-

8:30 am - 12:00 noon - Lecture on wire sequencing and torque selection

Closing Remarks

Around 100 participants from all over India attended the course.

It was an informative and enlightening session which was well attended and appreciated by all delegates.

Date : 17-02-2022

To

The Respected Principal

Seema Dental College And Hospital

Virbhadra Rd, PO Pashulok, Aam Bag, IDPL Colony,

Rishikesh, Uttarakhand 249203.

Subject: Pitts21 Module Training Course

Dear Doctor Pitts21 is the latest Patent system which provides SAP smile with more faster & predictable finishing to your patients.

We Appreciate your enthusiasm on continuous learning enabling your interest to provide

Sustaining Training Course to your Postgraduate's on Pitts Protocols & SAP bracket placement.

Dr Prasad Chitra is one of the first Pitts21 Mentor appointed by OC Orthodontics for South Asian Countries that also Includes India.

We can support Department by continuous Training courses under Guidance of OC Orthodontics Mentor Dr Prasad Chitra from April 7-9th 2022 (a 3days course)

HS DENTAL PRODUCTS

No.69 / 8-6-339, LB Nagar Colony, Old Bowenpally, Hyderabad, Telangana - 500009 (India).

HS DENTAL
Faster • Better • Smarter

who provides all the Advanced learning methods Including Live Bonding on Patient & Case Follow-ups .

Mentor will be providing 3 Modules of training course in the year

this will provide sufficient time for post graduates & entire department to implement the learning methods on day to day basis.

Dr Prasad Chitra recommends each Postgraduate to recruit minimum 3 patients or more on Pitts21 in the span of 3 modules this will help the student to efficiently implement SAP protocols.

As per the Recommendations by Pitts mentor Dr Prasad Chitra

OC Orthodontics will provide continuous Module Courses on yearly basis by taking care of Speaker Remuneration, Travel & Hospitality Expenses.
